REPUBLICAN CONVENTION NINTH DISTRICT.

The Republicans of the Niuth Congressional District are hereby respecon Thursday, September 15th, 1904, at 1 o'clock p. m., for the purpose of nominating a Republican candidate for Congress for said District. The Chairmen of the respective counties shall cause the Republicans of their counties to meet in Mass Conventions on Saturday, September 10th. 1904, at such times and pinces to be designated by said Chairmen, for the purpose of selecting Delegates to said Convention at Cynthiana.

The basis of representation shall be one Delegate I reach 100 votes, or majority fractional part thereof, cast for William McKinley in 1900, and the countles are entitled to the following Delegates, viz:

By order of the Committee

J. B BENNETT, Chairman Ninth District John D. Llttiejehn, District Secretary.

The policy of Protection has preserved the American market for the products of American manufacturers, and American manufacturers have made markets for the products of American farmers, and together they have established a high standard of American living and made possible the high scale of American wages.

Some idea of the cost of modern warfare can be arrived at by taking a Japanese warship like the Kasnga or Nysshin and calculating the number of shot she would discharge. The firstnamed slip carries four cannon which cost \$30,000 each. One of these gnns can fire two shots per minute, and every shot costs \$400: thus in five minutes these four cannon can discharge forty hombs at a cost of \$16,000. The smaller eannon cost each \$18,000, and every shot they fire means an expenditure of \$70. They are very rapid, and it is estimated that in five minutes the twelve cannon could discharge shot to the value of nearly \$35,000.

It looks very much like the Chicago butcher men are "losing ont" on their strike.

This looks like business. The Hon. Rich-ARD P. ERNST, Chairman of the Republican State Central Committee, has addressed the following letter to Mr. D. C. EDWARDS and to Dr. W. Godfrey Hunter, claimants to the Congressional nomination in the Eleventh Dis-

"COVINGTON, KY., August 24th, 1904.—Dear Sir: The condition of affairs in the Republican party in the Eleventh District, growing out of the contest for the nomination for Congress, is causing great and constantly increasing concern, not only to the Republicans of that Dis triet, but throughout the entire state of Kentucky, and demands prompt and decisive action.

"It is absolutely essential to the highest interests of the Republican party in Kentucky that an early decision shall be reached in regard to the nomination, and that such decision, made after due investigation, shall command the respect and confidence of the Republicans Wednesday, Sept. 28,'04. throughout the Commonwealth.

"It is understood that each of the candidates has expressed a desire for a hearing before and a decision by the State Central Committee. For the purpose, therefore, of obtaining a full and final hearing, I have called a meeting of the State Central Committee to be held at the Galt House, Louisville, Ky., in the rooms of the Republican Campaign Committee, on Monday, September 5th, 1904, at 2 o'clock p. m.

"You are hereby notified to appear before that Committee at the time stated and requested and directed to bring with you, or to have brought before that Committee, the returns of the primary election lately held to nominate a Republican candidate for Congress in the Eleventh District, and also all other papers and records showing the action taken by the Eleventh District Committee, both prior to and since the holding of the primary election, whether such action was taken by a majority or a minority thereof, and also any and all other evidence you may desire to produce.

"Each of the members of the Eleventh District Congressional Committee has been notified to appear before the State Central Committee at the time and place mentioned. A duplicate of this letter has been sent to the other Republican Congressional candidate from the Eleventh District.

"Kindly answer at once by wire at my expense. Re-RICHARD P. ERNST, "Chairman State Central Committee."

The Ledger hopes most sincertly that the Committee will settle the matter in the true Republican way—by a majority; and that the nomination will be given to the candidate who won it honestly at the polls. Any other course will be criminal.

HOME NEWS.

Of Interest to Everyone in Maysville

In every newspaper in the country you will read statements made by people living in outof-the-way places who are supposed to have been cured or derived great benefit from some wonderful remedy or "cure-all;" but here in Maysville we only publish statements made by Maysville people-the testimony of your friends, neighbors and fellow-townmen.

Mrs. Pierce Mills of 922 Forest avenue says: The experience Mr. Mills had with Doan's Kidney Pills gave him a high appreciation of their value. He procured them at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets. The results obtained lead him to speak in high praise of this effective kidney

"There Isn't One Really Good Printer in Five Hundred."

Printers' Ink—the leading journal on publicity of ail kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printing.

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep abreast of the times. We know what good printing is and produce it. We are pretty careful not to let a burn job get onto our presses. No press in the country can better our printing and we want you to know it.

The Garnott Marble Company of this olty has received the contract for the new river gage. The Iron gage on the upper grade is to be replaced by freestone, and the work is to be completod by the end of September. The job has been let to competent workmen, and when completed will be o. k. in overy respect.

The noxious odor that emanated from about the water basin on the Esplanade the other morning was attributed to the fact that the Goddess of Liberty, which surmounts the Fountain, had died from inattention and the offensivo smell arose from the decomposing body. Another solution was that a rat had taken shelter in the folds of the disfigured and neglected Goddess's nether garments and had starved to death. Whntever may have been the conso, it sent forth a fearful stench.
